## Pack These 11 Eco-Friendly (and Super Cute) Essentials For Back to School

We're giving them an A+ for style and sustainability.

---

Kick off the new school year right with supplies that won't break the bank—or Mother Nature. From plantable pencils and beeswax crayons to backpacks made from recycled water bottles, here are a few of our favorite eco-friendly ways to be a class act.

PHOTOGRAPHY BY: CLEANWELL

*1oz. Pocket-Size Hand Sanitizer Spray in Original, \$4.37, [amazon.com](https://www.amazon.com)*

The last thing your little one needs is to get sick the first week of school. To keep them germ-free on the go, slip [CleanWell](#)'s all-natural, easy-spray sanitizer into their bags. Made from a botanical, alcohol-free formula (no more dry skin!), this kid-safe antiseptic is never tested on animals, extra gentle on their sensitive skin, and completely biodegradable.
